FOREWORD

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs in 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the midmonth of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in addition, reports for December will include annual summary data.

Information presented include medical payments by form of payment, payments to medical vendors by type of service, number of recipients in whose behalf medical vendor payments were made, and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

This report was prepared by Henrietta Duvall and Annie J. Mayfield, with the assistance of Robert Terrell, National Center for Social Statistics.

INTRODUCTION

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families with Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) may also be eligible for medical care. For money payment recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct results of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, States are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

HIGHLIGHTS

Medical Assistance (Medicaid) Financed Under Title XIX of the
Social Security Act - December 1975

Payments made out of Title XIX funds in December totalled \$1.248 1/ billion, an increase of \$104 million from November. Average monthly payments for the year ending in December equalled \$1.166 billion, an increase of 2.0 percent over the year ending in November.

Approximately 9.1 million recipients 2/ had vendor payments totalling \$1.208 billion made in their behalf.

There were concurrently 368,335 medicaid eligibles enrolled in health maintenance organizations whose premiums totalling \$15.6 million were paid out of Title XIX funds.

Persons Served

The percentage distribution of persons for whom medical payments were made by basis of eligibility and money payment status for December is as follows:

Basis of eligibility	Money Payment Status		
	Total	Money payment authorized	Money payment not authorized
		Percent	
Total.....	100.0	76.3	23.7
Aged 65 and over.....	23.0	14.3	8.7
Blindness.....	0.5	0.4	0.1
Permanently and totally disabled.....	14.4	11.1	3.3
Children under 21 in families....	32.7	29.3	3.4
Adults in families with dependent children.....	22.8	21.2	1.6
Other Title XIX under 21.....	3.1	xxx	3.1
Other Title XIX age 21-64.....	3.6	xxx	3.6

1/ Includes total payments of \$3,593,827 for Vermont and vendor payments of \$3,549,136.

2/ Includes recipient count of 21,000 for Vermont which was furnished by the State. Recipient estimate for Wyoming was based on average payments per recipient from prior months. Pennsylvania recipient count was inflated to reflect prescribed drugs.

More than half (55.5 percent) of the recipients for whom vendor payments were made were members of families with dependent children. Children under 21 in families and other Title XIX recipients under 21 accounted for 35.8 percent of recipients. Recipients eligible on the basis of age 65 and over accounted for 23.7 percent of the caseload. Recipients who also received money payments outnumbered nonmoney payment recipients by more than 3 to 1. Among members of families with dependent children under 21, nine out of ten medicaid recipients also received AFDC money payments.

Medical Payments by Groups of Persons Served

As shown below, the distribution of payments differs significantly from the caseload distribution. Payments for persons not receiving maintenance assistance are nearly equal to those for money payment recipients. The single largest proportion of payments (27.4 percent) are made on behalf of recipients aged 65 and older who are not also recipients of maintenance assistance. Such recipients represent only 8.7 percent of the caseload. Payments for these recipients, to a large extent, are made to medical inpatient facilities, which represent the more expensive types of medical services. Only 17.5 percent (about half of the corresponding recipient proportion) of payments are made on behalf of children under 21 years of age. Among the eligibility groups under age 65, the largest proportion of payments (25.6 percent) are made on behalf of the permanently and totally disabled.

Basis of eligibility	Total	Money Payment Status	
		Money payment authorized	Money payment not authorized
		Percent	
Total.....	100.0	52.7	47.3
Aged 65 and over.....	37.2	9.8	27.4
Blindness.....	0.6	0.4	0.2
Permanently and totally disabled.....	25.6	16.2	9.4
Children under 21 in families.	14.7	12.4	2.3
Adults in families with dependent children.....	15.7	13.8	1.9
Other Title XIX under 21.....	2.8	xxx	2.8
Other Title XIX age 21-64.....	3.3	xxx	3.3

Payments by Type of Service

Increases in payments over November were observed for all services other than dental and family planning. The largest amounts of increases were observed for inpatient hospital, intermediate care, prescribed drugs and skilled nursing services. Inpatient services showed a higher average monthly rate of increase (2.2 percent) than outpatient (1.3 percent) for the year ending in December. Payments for these services constituted 70.9 percent of the total vendor payments: hospitals (31.5 percent), intermediate care facilities (20.7 percent), and skilled nursing facilities (18.7 percent). Among other than inpatient services, physicians' services and prescribed drugs accounted for 9.2 percent and 6.6 percent of the total payments respectively. Average monthly increases of more than two percent were noted for home health, other practitioners', outpatient, and laboratory and radiological services.

Screening Services

During December a total of 151,265 children were reported as screened under the Early and Periodic Screening, Diagnosis and Treatment Program. About fifty-six percent of the children screened were six years of age and older. Forty-nine percent of children screened had referable conditions uncovered and ninety-one percent of those with conditions uncovered were referred for diagnosis and/or treatment.

ANNOTATIONS

1. The following definitions apply to symbols appearing in the detailed tables:
 - indicates no data reported.
 - *** indicates that the percent was not computed because the base was too small.
 - Z indicates that the percent was less than 0.05.
2. Arizona has no title XIX program and is excluded from the tabulations. Vermont did not submit a report for December and is excluded from the tabulations.
3. Wyoming did not report recipients or payments by maintenance assistance status and basis of eligibility of recipient and is excluded from all applicable tables. Colorado reported recipients and payments by basis of eligibility only. Data by maintenance assistance status for Ohio are incomplete.
4. States do not always report premium or per capita payments into the SSA system for aged and disabled recipients separately, such as Georgia and Maine where payments reported under the aged category include payments for the disabled. There is variance from month to month in States reporting HMO premium payments because in some cases, such payments may be made less frequently than monthly (Table 1).
5. For North Carolina, the data in Table 2 include 31 recipients who were not identified by maintenance assistance status or basis of eligibility. These recipients are excluded from all other applicable tables. Also, the data in Table 3 include expenditures of \$78,140 which were not distributed by maintenance assistance status or basis of eligibility of recipient. Similarly, the payments are excluded from all other applicable tables.
6. Pennsylvania recipients for prescribed drugs are not included in the tabulations. Payments for such services are reflected in Table 5 only. For New Hampshire, payments for medical transportation are reflected in Table 5 only.
7. Data for New Jersey in Tables 2-14 include the number of children screened under the EPSDT program and payments for such services. Idaho payments include \$4,707 for administrative cost paid to Delta Dental.
8. Minnesota and Washington included HMO recipients and premium amounts in the data in Tables 2-14.

9. Kansas recipient and payment data submitted for the months of November and December are unrealistic; as the report for December includes data that was omitted from the November report.
10. For New York, recipient and payment data by basis of eligibility and maintenance status were estimated by the State.
11. In addition to Vermont, Colorado, and Wyoming; Massachusetts, Nevada and Pennsylvania are excluded from Tables 10-13 because children and adults in families were not reported separately. Connecticut, Illinois, Kansas, Minnesota, and West Virginia were able to report children and adults separately but were unable to differentiate medical vendor payments between adults and children in families. These States are excluded from the total percentage computation in Table 11. Pennsylvania did not differentiate other title XIX recipients by age and is excluded from Table 14.
12. For Utah, all adult recipients i.e., aged 65 and over, blind and disabled were reported under money payment not authorized even though some may be SSI recipients.
13. In some States, two or more types of medical services may be grouped together under one class, such as Connecticut where other practitioners', clinic, laboratory and radiological, home health, and family planning services are included in other care, and South Carolina, where skilled nursing facility services include payments to State mental institutions.
14. For some States, differences in vendor payment amounts between Table 3 and Table 5 are due to inclusion of retroactive adjustments which can be reported by type of service (Table 5) but which are not applicable to the recipients reported in Tables 2, 4, and 6-9. For the current month, however, Michigan's expenditures exclude accounting adjustments of \$161,867. For Illinois, the difference in payments between Table 1 and Tables 3 and 5 is due to the disallowance of some claims that exceeded time limitation.

Annotations specific for Screening Tables 15-20

15. States omitted from tables either did not report on screening services for December 1975 or there were no individuals screened during the month.
16. California reported 88,663 individuals receiving comprehensive physical examinations in addition to the screening data.

17. Data for Massachusetts, Ohio and Indiana are incomplete. For Rhode Island, data include 106 newborns, for whom payments are reflected in physicians' or hospital services. For Massachusetts, data include services for medicaid newborns, foster children, and mentally retarded children enrolled in the State's special schools.
18. Payments for screening services were not reported by Massachusetts, North Dakota, Michigan, and Puerto Rico and payments for Idaho, Illinois, New York, Pennsylvania, and Texas were not reported separately by age.

TABLE 1 TOTAL AMOUNT OF MEDICAL PAYMENTS UNDER TITLE XIX OF THE SOCIAL SECURITY ACT BY FORM OF PAYMENT AND BY NEW REGION AND STATE (DECEMBER, 1975)

QUARTERLY HIGHLIGHTS
OCTOBER-DECEMBER 1975

Payments made out of Title XIX funds reached \$3.6 billion in the quarter ending December 1975 for an increase of 6.2 percent over the previous quarter and 21.9 percent over the same quarter in the previous year. During the period, recipients in whose behalf medical vendor payments were made averaged slightly more than 9 million persons per month for a 3.7 percent increase over the previous quarter.

Recipients of cash assistance under aid to families with dependent children (AFDC) comprised 50.9 percent (4.6 million persons) of the monthly caseload during the quarter and recorded the largest caseload increase over the previous quarter both in terms of numbers (256,000) and percent (5.9). Increases in recipients were recorded for every eligibility category except Other Title XIX recipients. Recipients who received cash assistance outnumbered non-cash assistance recipients by more than three-to-one (Table Q-2) and recorded a substantially higher increase in average monthly numbers over the previous quarter of 4.8 percent in comparison with 0.5 percent.

In contrast the increase in payments for the quarter was relatively higher for nonmoney payment recipients; 7.2 percent to 5.6 percent for cash recipients. Payments for nonmoney payment recipients were only somewhat less than payments for money payment recipients and the difference is narrowing. Payments for non-cash assistance recipients increased by 23.7 percent over the same quarter during the previous year, while payments for cash assistance recipients increased by 18.4 percent. The corresponding recipient increases were 3.2 and 12.2 percent respectively. Included in the group of nonmoney payment recipients are the 'medically needy' only who are likely to seek assistance only for large medical bills and aged persons in long-term care facilities. Payments for non-cash assistance recipients 65 and over alone accounted for 26.9 percent of the amount spent. As shown in Table Q-4, long-term care services (mental hospitals, skilled nursing and intermediate care facilities) constituted 42.1 percent of the total vendor payments.

HIGHLIGHTS
CALENDAR YEAR 1975

During calendar year 1975, a total of \$14 billion was paid out of Title XIX funds, a 23.8 percent increase over 1974. An estimated average monthly number of 8.9 million recipients, an increase of 10.1 percent over the previous year, had vendor payments made in their behalf of 13.5 billion dollars. Of the five eligibility categories, members of families with dependent children under 21 constituted 4,972,000 recipients, more than half (56 percent) of the total. However, payments made on their behalf amounted to an average monthly amount of \$357,257,000 or less than one-third of the total. The second largest category of recipients were the aged 65 and over who numbered 2,040,000 (23 percent). Monthly payments on behalf of the aged averaged \$419,596,000; more than one-third of the total. Seventy two percent of the payments for the aged were on behalf of nonmoney payment recipients. The average monthly number of recipients eligible on the basis of permanent and total disability was 1,217,000 with an average monthly payment of \$270,610,000. For Other Title XIX recipients, the average monthly number was 609,000 with an average expenditure of \$69,086,000. The number of and payments on behalf of blind recipients represented less than one percent of the totals. As shown in Tables A-5 the percentage increase from 1974 to 1975 in the average monthly number of recipients were greatest for adults in families with dependent children. The second highest increase was for the permanently and totally disabled followed by children under 21 in families. Decreases in the average monthly number of recipients were observed for the blind and Other Title XIX recipients age 21-64.

In patient services (hospital, skilled nursing and intermediate care facilities) amounted to \$9.3 billion or 69.4 percent of the total medical payments in calendar year 1975. Payments for these services increased 22.9 percent over calendar year 1974. Among other services, 1.3 billion dollars were spent for physicians' and 0.9 billion dollars were expended for prescribed drugs an increase of 17.9 percent and 20.3 percent over the previous year respectively. Relatively large increases were recorded for home health, outpatient, family planning and clinic services over the previous year Table Q-5.

During the year an additional \$127.8 million and \$39.7 million were paid out of Title XIX funds to health maintenance organizations and for costs of screening services under the Early and Periodic Screening Diagnosis and Treatment Program (EPSDT), respectively.

^{1/} Arizona had no Title XIX program during calendar year 1975. Data were not reported by Guam.

^{2/} Data for Vermont represent January through July only.

^{3/} Includes general assistance medical vendor payments.

Note: In some States, two or more types of services may be grouped under one class.

Table A-5.-- CHANGES IN THE AVERAGE MONTHLY NUMBER OF RECIPIENTS AND AVERAGE MONTHLY AMOUNTS OF PAYMENTS, BY BASIS OF ELIGIBILITY OF RECIPIENTS, CALENDAR YEAR 1974-1975.

(In thousands)

Basis of eligibility	Number of recipients		Percent change
	1974	1975	
Age 65 and over.....	1,969	2,040	+3.6
Blindness.....	52	46	-11.5
Permanently and totally disabled.....	1,076	1,217	+13.1
Children under 21 in families.....	2,699	3,020	+11.9
Adults in families with dependent children.....	1,670	1,952	+16.9
Other Title XIX under 21.....	263	283	+7.6
Other Title XIX age 21-64.....	341	325	-4.7

Basis of eligibility	Amounts of payments		Percent change
	1974	1975	
Age 65 and over.....	\$343,565	\$419,596	+22.1
Blindness.....	6,855	7,216	+5.3
Permanently and totally disabled.....	210,096	270,610	+28.8
Children under 21 in families.....	145,958	175,784	+20.4
Adults in families with dependent children.....	152,499	181,473	+19.0
Other Title XIX under 21.....	25,502	31,105	+22.0
Other Title XIX age 21-64.....	28,443	37,981	+33.5

Table A-6.-- CHANGES IN PAYMENTS BY TYPE OF SERVICES FROM CALENDAR YEAR 1974-1975

Type of services	(In thousands)		Percent change
	Amounts of payments		
	1974	1975	
Total payments.....	\$11,293,920	1/\$13,981,716	+23.8
Total vendor payments.....	2/10,979,497	1/ 13,524,564	+23.2
Inpatient hospital services (total)....	3,511,398	4,294,756	+22.3
General hospital services.....	3,068,502	3,807,635	+24.1
Mental hospital services.....	442,896	487,121	+10.0
Skilled nursing facility services.....	2,190,488	2,627,919	+20.0
Intermediate care facility services in institutions (total).....	1,931,197	2,459,344	+27.3
For mentally retarded.....	283,723	481,992	+69.9
All other institutions.....	1,647,473	1,977,352	+20.0
Physicians' services.....	1,134,590	1,337,650	+17.9
Dental services.....	297,386	371,979	+25.1
Other practitioners' services.....	107,476	134,261	+24.9
Outpatient hospital services.....	297,782	404,193	+35.7
Clinic services.....	325,325	424,757	+30.6
Laboratory and radiological services...	92,285	118,213	+28.1
Home health services.....	40,568	111,988	+176.1
Prescribed drugs.....	748,866	901,224	+20.3
Family planning services.....	61,634	81,452	+32.2
Other care.....	240,254	256,827	+6.9

1/ Does not include total payments of \$14,481,910 for Vermont and vendor payments of \$14,262,219.

2/ Total includes \$248,541 not distributed by type of service.

NOTE: Totals may not add due to rounding.
